WHAT IS A POMPALLOON?

Pompalloon® is a giant balloon on a stilt, that you can assemble yourself in minutes.

There's absolutely no helium and you can reuse the stilt over and over again with new giant balloons.

Pompalloons can be shipped anywhere in Scandinavia, and always include easy assembly instructions.

THE REUSABLE POMPALLOON STAND

Our clever Pompalloon stands are easy to assemble, and are designed to be reused.

A few simple items like an electric pump or blower, and water weights for windy days, are part of the initial investment, and will pay for themselves in no time.

WATER WEIGHT

Pompalloons are generally stable in winds of up to 7 m/s. With added water weights, they can manage up to 10m/s.
