Go beyond standard elements with jumbo shapes, contour-cut signage, and origami or 3D-printed elements

Print graphics support

From prepress to high-impact visuals, seamlessly integrated

Event strategy assistance

Smart placements and pre-visualizations to enhance engagement, foot traffic, and visibility

A WORD ABOUT **WEATHER**

WIND

Outdoor stands will hold up nicely in a fresh breeze — that is, in winds of up to 10 meters per second (36 km/h), or category 5 on the [Beaufort scale](#). This includes most conditions in which outdoor balloon decor can be considered a good idea.

A caveat: Features of the landscape or architecture of a given location may produce wind tunnels or sudden gusts, and should be taken into account.

RAIN

The outdoor Pompalloon base is designed to withstand brief exposure to rain. However, leaving it to soak for days at a time may result in surface deformation, and will eventually degrade the integrity of the base.

To place an order, send us an email at info@pompalloon.com
